

MISSION POSSIBLE

February 7, 2014

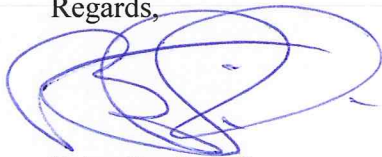

To whom it may concern,

Mission Possible transforms lives by helping people challenged by homelessness and poverty achieve a renewed sense of dignity and purpose through meaningful work. Over the past few years *The Butler Did It Catering* and Mr. Darryl Ray have deepened their involvement with Mission Possible through support of our annual fundraising campaign and providing a fantastic Christmas Dinner for our team. Mr. Ray even offers his personal time to help develop pottery products made in our art studio. As a result our members are able to sell what they create—and experience the dignity and pride that comes with meaningful work.

I often eat lunch at *The Butler Did It Bistro* on Clark Drive. Not only is the food consistently high quality, but the team that Darryl is building reflects the impeccable character and uncompromising integrity of the business.

We are so thankful for businesses like *The Butler Did It* that generously give back to their community.

Regards,

Brian Postlewait
Executive Director
Mission Possible
